Education

DevPoint Labs	Salt Lake City, UT
Full-Stack Web Development Certification	*Aug - Oct 2021*
University of Utah	Salt Lake City, UT
Bachelor of Science, Chemical Engineering	*May 2019*

Employment

DevPoint Labs — Remote/SLC, UT
Teacher Assistant — *Nov 2021 – Present*
- Provide guidance to solving errors that students run into as they work on projects
- Create review videos to help students understand concepts

Boart Longyear — West Valley City, UT
Logistic Clerk — *Nov 2019 – Aug 2021*
- Assisted in training new employees on how to use software and to process shipments
- Managed the scheduling of shipments going from Canada and U.S. to Central and South American destinations

Projects

DevPoint Labs Portfolio Project - DPL Overflow
Repo: https://github.com/Tomuke-H/dpl-overflow Heroku: https://dpl-overflow.herokuapp.com/
- Worked with team members to create a site similar to that of Stack Overflow, but with the intention that it would be used by current students and alumni to help each other with questions.
- Worked on making custom SQL, and backend handling for data relating to tags and their relations with questions.
- Handled the implementation of third party libraries for markdown editors and viewers for questions and answers.

DevPoint Labs Review Projects
Git: https://github.com/Michaelreforged/Review_W21_Movie_theater
Git: https://github.com/Michaelreforged/Review_Spring_22

- Created to help show students Ruby on Rails setup, react-router-dom usage, switches, if-else statements or useReducer, pagination, notifications, and validations.
- Uses Ruby on Rails for backend and React to run Javascript frontend, used GitHub for adding collaborators and to show the dangers of merging code without looking thru to see what might've been changed and how it may affect the project.

Skills
- Proficient in JavaScript, SQL, and Ruby.
